Index by subject matter (thematic review) Journal of Medical Ethics, volume 24, 1998

Editor's Note
This combined index and thematic review was introduced in the hope that it would be more useful to readers than the old system. In the first part, papers and book reviews are classified using the American National Reference Centre for Bioethics Literature Library Classification Scheme (the Kennedy system), which is printed on page 434. In the second part authors, reviewers, papers and book reviews are arranged alphabetically, with their Kennedy classification following.
